RE: DRINKING WATER ADVISORY

The RRFNs Water Treatment Plant is currently unable to meet the demands for water. The reservoirs are low – at this time we are issuing a boil water advisory before consumption and asking people to limit their water usage. This advisory is in effect as of June 14, 2021. We will advise the community once it has been lifted.

Saving Water at Home

Fixing household leaks right away saves up to 20 gallons a day

Washing only full loads of dishes and laundry saves up to 50 gallons per week

Spending only 5 minutes in the shower saves up to 8 gallons each time

Turning off water while brushing your teeth saves up to 2.5 gallons a minute

Buying water-saving devices like high-efficiency washing machines or toilets saves many gallons a day

Using a broom instead of a hose to clean your driveway saves up to 150 gallons each time

Cutting down on watering your lawn to 1-2 days a week saves up to 840 gallons

Watering your plants in the early morning or evening to reduce evaporation saves up to 25 gallons each time

Checking your sprinklers for leaks and repairing quickly saves up to 500 gallons a month

Installing a smart sprinkler controller that adjusts watering based on weather saves up to 40 gallons a day
