FAMILY HEALING PROGRAM

Addiction Affects the Whole Family

When addiction touches a family, the impact extends far beyond the individual using substances. Loved ones often carry heavy burdens—worry, stress, sleepless nights, and emotional pain—while their own needs can go unnoticed.

Our 3-Day Family Program is designed to support families navigating these challenges. Over the course of the program, you will gain a deeper understanding of addiction as a disease, its effects on you and your loved one, and discover practical strategies to support your own healing.

KEY TOPICS

- The disease of addiction
- Understanding maladaptive behaviors
- Family roles and the system
- Enabling - fixing vs helping
- Introduction to the 12-step program
- Relapse prevention
- Emotional triggers
- Communication
- Boundaries
- Self compassion

T3 POLICE STATEMENT

October 8, 2025

Treaty Three Police Service Statement of Apology to Rainy River First Nations

To the Community of Rainy River First Nations,

The Treaty Three Police Service (T3PS) and the Ontario Provincial Police (OPP) North West Region (NWR) remain committed to working in partnership with Indigenous communities and public safety agencies to deter, detect, and disrupt illegal activity along the international border with the United States. Rainy River First Nations is a key partner in this shared effort particularly with your close proximity to the border.

As part of a recent joint initiative focused on border security, a camera was placed on your lands. This occurred without prior engagement with your community leadership. We recognize the importance of consultation and understand the concerns raised during our meeting on September 11, including those related to privacy, treaty rights, and sovereignty.

We are committed to strengthening our relationship and ensuring future initiatives are guided by mutual understanding and respect. To that end, we will:

- **Establish Clear Protocols:** Ensure leadership from both T3PS and OPP are informed and aligned on all joint enforcement and intelligence activities.
- **Improve Communication:** Designate clear points of contact to facilitate timely and transparent dialogue with Rainy River First Nations leadership on possible future initiatives.
- **Uphold Sovereignty:** Ensure all future initiatives respect your community's rights, lands, and governance.

We value our relationship with Rainy River First Nations and remain dedicated to working together through open communication, collaboration, and shared responsibility.

Cheryl Gervais

Medical Transportation Ontario Region Non-Insured Health Benefits Program

To: Ontario Region Nursing Stations/Health Centres
Chiefs and Councils/Health Directors
Indigenous Services Canada Partners

From: Terry Jeans, Director Client and Community Response

Date: October 8, 2025

Medical Transportation Requests: 10 Day Guideline

The Non-Insured Health Benefits (NIHB) Program is committed to supporting eligible clients in accessing medically necessary health services. In response to feedback from clients and First Nations leadership, NIHB has reviewed and updated our approach to travel planning under the Medical Transportation benefit.

NIHB is now following a 10 day travel guideline for medical transportation requests. This standard will provide clients with more notice before their travel out of community.

Effective November 1, 2025, we request all client transportation requests be submitted to NIHB a minimum of 10 business days prior to the appointment date. *Some exceptions apply.*

Background

Many clients and First Nation representatives have expressed concerns about receiving short notice travel arrangements. Additionally, booking travel on short notice also presents challenges with flight availability and lack of accommodation options near medical service locations.

NIHB carefully considered the feedback from clients and partners, and the realities of the travel and accommodation industry which face increasing demand and various limitations. We explored how we issue travel vouchers and when they are provided to clients. The 10 day guideline will help to address existing challenges and improve client services.

Service Improvements

This guideline will improve the overall travel experience for clients. It enables NIHB to:

- Secure travel and accommodations in a timely manner for clients
- Issue travel vouchers well in advance – providing clients more notice before their departure
- Minimize last-minute complications – reducing the risk of delays or missed appointments
- Improve client services and transportation planning
- Ensure NIHB resources remain available for urgent travel

Urgent/Unforeseen Needs

While we request every effort be made to follow the 10 day guideline, NIHB understands that urgent or unforeseen medical needs can arise. In these cases, we will continue to accept transportation requests and every effort will be made to arrange travel within the limitations of transportation and accommodation availability. If travel cannot be secured in time, both the client and health facility will be informed so alternative appointment arrangements can be made. Requests for urgent travel may be escalated to management who may request documentation to support the urgency.

Contact for More Information

We appreciate your cooperation in following this guideline to provide more reliable and efficient service for all clients. Should you have any questions or require further information, please do not hesitate to contact Patricia Emond, Acting Program Delivery Manager, at patricia.emond@sac-isc.gc.ca.

About NIHB

The NIHB program provides coverage for a range of health services for registered First Nations and recognized Inuit, which includes prescription drugs, over-the-counter medications, dental, vision care, medical supplies and equipment, mental health counselling, and transportation to access health services that are not available locally. Learn more about NIHB at www.canada.ca/NIHB.

Sincerely,

Terry Jeans,

Director, Client & Community Response, FNIHB
